U.S. EXPORT SALES

- Outstanding Export Sales
(Unshipped Balances)
on OCTOBER 9, 1977
- Export Shipments in
Current Marketing Year
- Daily Sales Reported
OCTOBER 10 - 16, 1977
--As Reported by Exporters

Outstanding export sales as reported by private exporters and compiled with other data in this release give a snapshot view of the current contracting scene. At any given time in the course of a marketing year outstanding sales do not bear a consistent relationship to eventual export shipments. A meaningful export projection is not obtainable by the simple device of adding outstanding sales to exports to date. The latter data, alone, may provide a more reliable measure of current export activity than may be derived from a year-to-year comparison of outstanding sales.

COMMENTS PREPARED BY THE OFFICE OF THE GENERAL SALES MANAGER

EXPORT SALES REPORT

Comments on release of October 20, 1977 (based on reports from exporters for the week ending October 9 unless otherwise noted).

Reported exports for the period were slowed by the longshoremen's strike, particularly at the Port of New Orleans.

Wheat: Sales activity staged a moderate recovery from the marketing year (MY) low of last week. Major buyers included Brazil, the Netherlands, Italy, Japan and Egypt. Sales to unknown destinations were sizeable; however, switches to known destinations were partially offsetting. The significant decline in exports can be attributed to the longshoremen's strike.

Corn: Net new sales of 723,500 metric tons (MT) were moderately heavy. Greece dominated, followed by Egypt, Japan, East Europe, the United Kingdom and West Germany. Sales of 27,400 MT were switched from West Germany to East Germany. Sales, previously reported to unknown, were switched principally to Japan and West Germany. Contract adjustments reduced the size of a new sale to Egypt and total sales to the Netherlands. Sales to unknown destinations for MY 1977/78 of 306,088 MT were reported under the daily system. Export clearances dropped significantly (476,800 MT).

Oats: Interest continued heavy for the second consecutive week. Another large sale (7,100 MT) to unknown destinations was reported along with smaller sales to Switzerland.

Sorghum: Export sales were moderately heavy as Portugal and Japan were active in the market. A small outstanding sale to Spain was cancelled.

Barley: The only significant activity were sales of 32,000 MT sale to unknown destinations. The strong export picture for barley prompted an increase in the current MY USDA export estimate to 1.3 million MT, only fractionally below last year's large level. However, the important market areas are far different with Korea the dominant factor this MY, while the EC was the major importer in 1976/77.

Rice: The rice export market was fairly active as Iran bought 25,700 MT milled long grain and the Republic of South Africa purchased 13,100 MT long grain brown rice. Zaire purchased 11,900 MT under PL-480. Exports were modest.

Soybeans: Sales were down sharply from the preceding week with the EC, Japan, Yugoslavia and Spain the principal buyers. Optional origins sales were reduced 42,100 MT as sales of 37,000 MT to the PRC were assigned to other origins. Exports (259,500 MT) also declined with over 86 percent going to the EC and Japan.

Soybean Cake and Meal: AID-financed sales of 50,000 MT to Egypt accounted for nearly half of the weekly sales. Other significant sales were to the EC and Japan and unknown destinations. Exports (21,100 MT), though up from the previous week, remained low.

Soybean Oil: New sales of 29,000 MT included 11,700 MT to the EC and 17,000 MT to unknown destinations. Optional origin sales of 5,000 MT to the PRC were reported, possibly representing a change in their import policy as imports of U.S. origin oil have been prohibited in recent years.

Cotton: Sales activity picked up from the slow pace of the past several weeks. New sales of 108,500 RB were reported this week with Indonesia (44,600 RB) and Japan (19,100 RB) the major buyers. Reported exports of 27,700 RB were the lowest for any week this MY.

Data shown above may not add due to rounding. 1/ Includes increases resulting from new sales, upward contract adjustments, shifts in delivery period from one marketing year to another and changes from one commodity to another. 2/ Net foreign purchase activity. A purchase from a foreign seller is a transaction contracting to buy U.S. produced commodity from a firm outside the U.S. -- not involving a cancellation or buy-back of a reported sale. 3/ Includes decreases resulting from buy-backs of all or part of a contract balance by mutual consent, unilateral cancellation by one party which could result in a contract dispute, downward contract adjustments, shifts in delivery period from one marketing year to another, and changes from one commodity to another. 4/ Does not include exports for exporter's own account.

October 20, 1977
